 **Decedent:** Name _____

I, the undersigned, certify, warrant and represent under the penalty of perjury that I have the full legal right and authority to authorize the cremation and control the disposition of the remains of the Decedent named above. (hereinafter referred to as the "Decedent") I hereby request and authorize. ASPEN CREMATORY (hereinafter referred to as the "Crematory") to cremate the body of the decedent named above. The cremation, and disposition of the remains of the Decedent authorized herein shall be performed in accordance with all the governing laws, rules and policies of the Crematory, Funeral Establishment, and the following terms and conditions:

The Cremation Process: The cremation container containing the remains of the Decedent will be placed in the cremation chamber and will be totally and irreversibly destroyed by prolonged exposure to intense heat and direct flame. I authorize the Crematory to open the cremation chamber during the cremation process and reposition the remains of the Decedent in order to facilitate a complete and thorough cremation. I understand and acknowledge, that even with the exercise of reasonable care and the use of the Crematory's best efforts, it is not possible to recover all particles of the cremated remains of the Decedent, and that some particles may inadvertently become co-mingled with minute particles or residue of other cremated remains remaining in the cremation chamber and / or other devices utilized to process the cremated remains. I hereby authorize the Crematory to dispose of such residual particles in any lawful manner it deems appropriate. Following cremation, the cremated remains of the Decedent, consisting primarily of bone fragments, will be mechanically pulverized to an unidentifiable consistency prior to placement in an urn or other container. In the event the urn or container is insufficient to accommodate all the cremated remains of the Decedent, any excess cremated remains will be placed in a secondary container and returned to the Funeral Establishment, together with the primary urn or container. I understand the cremation will take place according to the Crematory's schedule and at its discretion after all required permits and authorizations are obtained and received by the Crematory, if no objections have been raised, and after any scheduled funeral ceremonies or viewing have been completed.

Mechanical, Radioactive or other Devices implanted in the remains of the Deceased (such as pacemakers, etc.) may create a hazard when placed in the cremation chamber. The Crematory will not knowingly cremate any human remains which contain any type of implanted device. In the event the remains of the Decedent contain such a device, I have instructed the Funeral Establishment to remove or arrange for the removal of these devices and to properly dispose of them prior to transporting the decedents remains to the crematory. I understand that in the event of my failure to notify the Funeral Establishment or any others responsible for the removal of such devices or implants that I will be liable for any damages to the crematory and or injury to crematory personnel.

I further authorize that if any items, other than the cremated remains of the Decedent, are recovered from the cremation chamber, they may be separated from the cremated remains of the Decedent and disposed of by the Crematory.
